Yellow Bamboo

## Welcome!

## Dear Customer:

We have been selling imported natural materials for 30 years now. We are always searching the world for new and innovative products: seat weaving, furniture, wicker, basketry, and tropical decor. We will be glad to help you with an order if you are unsure of the material and amount needed. When ordering, it is a good idea to let us know how you are going to use the items. We can help you select appropriate material and provide helpful hints and suggestions. For your convenience, an order form can be found at the back of this catalog. If you are looking for a product that you do not see in the catalog please feel free to call and ask any questions. We may be able to order it for you or direct to someone.

## Hours of Operation...

Walk-in hours are 9:00 a.m. to 3:00 p.m. Monday - Friday

## To Order by Mail...

Use the order form found at the back of the catalog. Please enclose a check or credit card information, or instructions to ship UPS C.O.D. Note: Additional fees for C.O.D. shipments.

## To Order by Phone...

Phone orders are taken weekdays between 9:00 a.m. and 3:00 p.m. Pacific Time. For same day shipment call before 12:00 p.m. All other times, leave a message and we will call you back as soon as we return. Phone: (714) 847-0707 (Sorry, collect calls not accepted.)

## To Order by FAX...

Dial our fax number at (714) 843-5645. All fax orders received before 12:00 p.m. processed and shipped the same business day.

## To Order via the Internet...

If you have Internet access, you can send us an Email at orders@frcrs.com or visit our website (www.franksupply.com) and use the order form.

## To Order from Hawaii, Alaska, U.S. Territories and APO or FPO addresses...

In most cases, shipment must be by U.S. Mail. Shipping \& Handling is a minimum of $\$ 12.00$. Shipping rates are determined by weight, size, and destination of package. We will inform you of shipping amount at time of order.

## All over-payments are refunded with order.

## To Order from outside the USA...

All prices listed are in U.S. Dollars. Shipment is usually via Air Mail. Certain package size restrictions may apply. Contact us for specific details for your country.

## Back Orders...

For those times when we are out of stock for a particular item, you may request that the item be back ordered. All back ordered items will be shipped as soon as possible. We cannot guarantee a specific date, so please specify a cancellation date whenever requesting Back Orders. Remember, additional shipping charges will be added at the time of shipment.

## Returns, Refunds and Exchanges...

All items must be returned within 30 days of the invoice date.
All returns require prior authorization and must be returned in the original condition.
All items will have a $10 \%$ restocking fee.
No Returns on bamboo. No exceptions.

## Samples...

It is a good idea to send a sample, any time you are unsure of a particular product. (It may save you the time, money and trouble of returning unsuitable choices.)

## Refurned Checks...

A fee of $\$ 10.00$, plus any other bank charges incurred will be added to your bill, for any returned check.

## Chair Cane and Hand Cane Kits

## Natural Strand Cane

Natural strand cane or chair cane, as it is commonly called, is made from the outside bark of
 rattan (a tropical vine). This bark or peel is cut by machine to various widths for use in cane seating. Note: This cane is used only with those chairs having holes drilled around the seat frame.

Craft Note: When measuring your seat for proper cane size, measure the diameter of the holes (Y) first. Then measure the holes from center-to-center (X). The center-to-center dimension is the most important. Refer to the table below. If you are unable to determine between two sizes, it is always best to choose the smaller of the two. We recommend the book Restoring Hand Cane Seats: Order Number: B0109 found in the book section of this catalog.

Full Hank - 1000 ft
1/3 Hank - 330 ft
Note: $1 / 3$ Hank will cane an approximate 14 " x $16^{\prime \prime}$ seat

Hand Caning Kit

This kit contains everything needed to cane your favorite hand cane chair. It is used for those chairs that have holes in the seat frame. The kit contains the book Restoring Hand Cane Seats, strand cane, binder cane, 12 caning pegs, and a caning awl. The kits will do a seat approximately $12^{\prime \prime}$ x 14". For larger seats, order additional cane from chart above.

| Cane Size | Order Number | Price |
| :--- | :---: | :---: |
| Super Carriage | K-SC | $\$ 24.19$ |
| Carriage | K-CA | $\$ 27.08$ |
| Super Fine | K-SF | $\$ 28.80$ |
| Fine Fine | K-FF | $\$ 29.17$ |
| Fine | K-F | $\$ 31.99$ |
| Narrow Medium | K-NM | $\$ 33.49$ |
| Medium | K-M | $\$ 34.95$ |
| Common | K-C | $\$ 37.39$ |

Please specify cane size needed for your chair. See above for proper size.
Choosing the wrong size will make the job difficult.

## Binder Canes

## Natural Binder Cane

Natural binder cane is much like strand cane, in that it is also made from rattan peel; but it has been cut wider and thicker. It is a very versatile material; which can be used to cover the holes in hand caning, as a seating material using the tight weave technique, as a wrapping material on wicker

and rattan furniture, and as a weaver for basketry.

| Description | Approx. Width | (Approx to scale) | Order Number 25 foot Coil | Price/coil | Price/5 coils | Order Number 500 foot hank | Price/hank |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Narrow Binder | 4-4//2 mm (5/32") |  | BCNC | \$3.25 | \$13.25 | BCNH | \$29.50 |
| Medium Binder | 5-51/2 mm (7/32') |  | BCMC | \$3.65 | \$13.75 | BCMH | \$32.50 |
| Large Binder | 6-61/2 mm (1/4") |  | BCLC | \$4.00 | \$17.50 | BCLH | \$38.50 |
| Ask for current price for 25 coils or 25 hanks (Note: All Sizes vary slightly) |  |  |  |  |  |  |  |

## Shaved Slab Rattan

This is cut like binder cane, but is even wider and thicker. It has generally been used on rattan and Danish modern furniture, chair seats and porch rockers, basketry and lashing bamboo poles together.

| Cane Size | Approx Width | Approx to Scale | Order Number 25-foot coil | Price/Coil | Price/ 5 Coils | Order Number (Hank) | Price/Hank |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Shaved Slab | $6-7 \mathrm{~mm}\left(1 / 4^{\prime \prime}-5 / 16^{\prime \prime}\right)$ |  | BCSSC | \$4.95 | \$16.85 | BCSSH | \$29.45/250 ft hank |
| Wide Shaved Slab | $8-9 m m\left(5.16^{\prime \prime}-3 / 8^{\prime \prime}\right)$ |  | BCSSWC | \$4.95 | \$16.85 | BCSSWH | \$42.50/250 ft hank |
| Extra Wide Shaved Slab | $9-10 \mathrm{~mm}\left(3 / 8^{\prime \prime}-7 / 16^{\prime \prime}\right)$ |  | BCSSXWC | \$4.95 | \$16.85 | BCSSXWH | \$42.50/250 ft hank |

| Common Uses for Binder Cane and Shaved Slab Rattan |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
| For binding in hand weaving- covers the holes in seat frame <br> (Inst. Booklet: BO109) | For weaving a tight weave seat. 1 hank of large binder will do a seat approx $14^{\prime \prime} \times 16^{\prime \prime}$ | ```For wrapping rattan and bamboo furniture joints. (Inst. Sheet: I045)``` | For wrapping the legs of certain wicker furniture. (Inst. Book: B0177) | For use as a weaver in basketry. (see basketry section) |

## Wire Nails

$1 / 2$ " long wire nails are the preferred hardware for attaching binding cane to rattan furniture and accessories. Comes
in 1 oz . packages (300/package approx).

Order Number: WN \$2.10/pack

## Rattan Furniture

## Re-wrapping Kit

This kit has approximately 200 feet of large binding cane, 50 wire nails, and illustrated how-to instructions. Order Number: K-RFR $\$ 24.95$ each

* Sold in 7 ft lengths only

Fill a squeeze bottle with a solution of $50 \%$ white vinegar and $50 \%$ water. Carefully, drop a bead of solution on the spline next to the inner edge of the groove. Allow the solution to soak at least 2 hours; keeping the spline wet during the 2 hours. Newer chairs may take 4 or more hours of soaking. Soaking the spline before removing helps to soften the glue and makes the removal of the spline easier and saves time.

After the spline has soaked for at least 2 hours, carefully start prying the spline out. Start at the point where the ends of the spline meet. Pry the spline out with a caning awl or ice pick. When there is enough room, use a spline chisel. Take
your time and rock the spline chisel from side to side, prying the spline out of the groove.
Use sandpaper or a wood file to smooth the sharp edge on the inside of the seat frame. This will prevent the edge from cutting the cane webbing during use.
Use a sponge or damp cloth to clean away water, old glue, pieces of cane and dirt from the chair. The chair is now ready to re-cane. (For more detail, see our booklet Restoring Press Cane Seats on page 5)

## Reed Spline

The wedge-shaped reed that is used to hold the webbing into the groove around the seat frame. It is flexible and is bent into coils for easy shipping. Groove should be measured
as accurately as possible, or send us a sample.
Sample Card Available - Number SA-S: \$2.00

## Reed Spline Sizing Guide

This chart is designed to help you find the correct size spline for your needs. Determine which combination of coins (below) fits snugly in your chair's groove and use that to match it to the approximate reed spline size. If you are still unsure, it is advisable to order the larger size.

| Reed Spline | Inches | Millimeters | Gauge with Coins |
| :--- | :--- | :--- | :--- |
| RS06 | $5 / 64^{\prime \prime}$ | 2.00 mm | 1 Nickel |
| RS065 | $3 / 32^{\prime \prime}$ | 2.35 mm | 2 Dimes |
| RS07 | $1 / 8^{\prime \prime}$ | 3.20 mm | 1 Nickel, 1 Penny |
| RS075 | $5 / 32^{\prime \prime}$ | 4.00 mm | 2 Dimes, 1 Penny |
| RS08 | $11 / 64^{\prime \prime}$ | 4.50 mm | 2 Pennies, 1 Nickel |
| RS085 | $3 / 16^{\prime \prime}$ | 4.75 mm | 2 Nickels, 1 Dime |
| RS09 | $7 / 32^{\prime \prime}$ | 5.50 mm | 3 Nickels |

| RS10 | $1 / 4 "$ | 6.50 mm | 2 Nickels, 2 Pennies |
| RS105 | $17 / 64^{\prime \prime}$ | 6.75 mm | 3 Nickels, 1 Dime |
| RS11 | $9 / 32 "$ | 7.25 mm | 2 Nickels, 3 Dimes |
| RS12 | $5 / 16^{\prime \prime}$ | 8.00 mm | 3 Nickels, 1 Dime, 1 Penny |

## Fibre Rush \& Natural Rush

Fibre Rush - Fibe ushis su ver
durable, one-ply, twisted paper, made to resemble real twisted bull rushes. There is no collecting, drying, soaking, flattening or twisting required, as in natural rush; thus saving hours of work.

What Color is Best - Kraft brown and light kraft are best for most chair seats. The light kraft allows you to stain with a greater range of colors. The white colored rush can be dyed with our water soluble dyes.
-Ask for current pricing on 10, 20, and 35-40 lb. spools.

* Most popular sizes and colors.

## How Much To Order

All rush is guaranteed to vary slightly in size, from order to order, due to twist variations. All colors are guaranteed to vary from order to order. All rush texture will vary from order to order, so it is important to order enough rush to complete your entire project. A typical seat measuring 14" x 14' takes about two lbs.

One 35-40 pound spool will do about 11 to 17 chair seats. Color is consistent throughout the
 spool.

Approx

| Strands/Inch | Feet/Pound |
| :---: | :---: |
| 8 | 255 |
| 6 | 210 |
| 5 | 145 |
| 4 | 138 |
| 4 | 132 |
| 3 | 60 |

Sizing Up Your Chair
*To Determine the size of Size Dia. rush used in your chair, measure the number of strands per inch in your existing chair. All sizes vary a liftele.

One 2 Pound coil is enough to do one average
chair seat with approximate dim. of $14^{\prime \prime} \times 14^{\prime \prime}$.

| Price Listing <br> Color |  |  | Price Per <br> Order \# | Size <br> Price Per 5+ |

| Kraft Brown | FRKB4-2 | $\# 4$ | $\$ 10.75 /$ coil | 2 lb. Coils |

Price Listing

Notural RuSh - Natural, hand-twisted, sea grass rush is a great substitute for doing traditional rush seating. It is in its natural green color, but will turn brown with age. Since this is twisted by hand, there may be variations in the diameter along the cordage. Put up in coils weighing approximately $21 / 4$ pounds each. One coil will do a seat measuring approximately 12 " x 14 ".

## Seat Weaving Tools \& Supplies

## Prof. Caning Awl

This durable, stainless steel tool is an excellent aid for hand caning. The coved tip is ideal for hard to reach places. Order No: CAP \$ 18.95 each

## Caning Awl

One of the most versatile tools for hand caning, spline removal and basketry.
Order No: CA $\quad \$ 2.15$

## Caning Pegs

Long, tapered smooth and easy to use. They are used to hold strand cane in the holes temporarily during hand caning
Order Number: CP
\$2.40/dozen
$\$ 14.40$ for 12 dozen

## Wedges

These are used for pressing cane webbing into the groove. Put up in a set of 5 hardwood wedges, shaped for easy usage on round, as well as square seats.

## Order Number: W <br> $\$ 2.10 /$ Set of 5

## Cane Webbing Kits

A complete kit for people who need to re-do a pressed cane seat, but are unsure of the exact size needed. Great as a gift and makes an excellent resale item. Kit Contains:

- W901 $1 / 22^{\prime \prime}$ open cane webbing ( 18 " $\times 20$ ")
- 3 different sizes of reed spline
- Instruction book
- 1 set of wedges

Order Number: K-WEB \$24.95/kit

W901 $1 / 2$ " open cane webbing ( 20 " $\times 22^{\prime \prime}$ ) can be substituted for another type of webbing for an additional charge of $\$ 1.00$

## Glycerin

Used in hand caning, press caning, and basketry, it acts as a wetting and softening agent. Strand cane, webbing and reeds stay wetter and more flexible longer. It can make a real difference in areas where the water is hard. It is $99.9 \%$ pure USDA clear food grade glycerin. Just one teaspoon per gallon of water is required.

Order Number: GLY-BOT (4 oz. bottles)...\$2.49 each - $\$ 1.86$ each for $12^{+}$

## Original Glue

This glue is ready to use and requires no further preparation. Its uniformity and high quality contribute to its superior performance because it sets slowly, allowing plenty of time for the cane to dry. It is water soluble and can be removed from unfinished wood with soaking.
Order Number: LG-BOT (4 oz bottle) \$2.49 each

## Spline Chisel

Made of steel, with a handle that will not split with hard usage. Used for removing old spline in chairs. Available in two sizes: Number 1 is $1 / 8^{\prime \prime}$ wide at the tip and Number 3 is $3 / 16$ " wide at the tip. (If size is not mentioned in order, a Number 3 will automatically be shipped.

| Order Number SCI/8-No. $1\left(1 / 8^{\prime \prime}\right)$ | $\$ 17.95$ each |
| :--- | :--- |
| Order Number SC3/16-No. $3\left(3 / 16^{" 1}\right)$ | $\$ 17.95$ each |

## Caning Tool

In caning, at each intersection, the cane must be adjusted four times. Doing this task with pegs requires a high level of manual dexterity, and can be fatiguing to fingers and hands. This tool accomplishes the same task, more easily, and causes less fatigue.
Order Number: CT \$12.50 each

## Oriental Seagrass

Ask for current price on carton of 20 coils Sample Cards Available: $\$ 1.00$ each Order Number: SA-SG You can mix sizes of Twisted Seagrass to obtain price breaks.

## Shaker Tape, Flat, and Flat Oval Reeds

| Shaker Tape |  |  |
| :---: | :---: | :---: |
| Shaker tape is a cloth tape used for seating on Shaker furniture that has advantages over other weaving materials because it is more flexible and resilient. It comes in $1^{\prime \prime}$ widths. To figure out how much yardage of tape you will need, measure (inches) the length of the front rail and the length of a side rail and multiply them together. Then divide the result by 9 . If the chair seat is 15 " x 14 it will take about 25 yards of tape to do the seat. |  |  |

Flat and flat oval reeds are made from the core of firstquality rattan. Because these reeds are easily worked when soaked in water, they are used for a wide variety of purposes. They are used in seat weaving, using the herringbone pattern, and for high quality baskets and wicker furniture. These reeds are put up into one pound
 coils as pictured.

## Round Reed

## Round Reed

Round reed is cut from the core of rattan (see page 28). It is machine-cut to approximate diameters and smoothness. Slight differences in size and color exist from strand to strand. Round reeds are used for basketry, wicker and reed furniture and repair. Also see our plastic wicker supplies on page 17.
Available: Coils and in bulk or cut lengths
Shipped in 1 lb coils unless otherwise requested by customer

## Half Round Reed

Half Round reed should not be confused with Flat Oval reed. Half Round reeds are more rigid and are used mostly in basketry as rims and handles; also as a weaver in seats and backs of wicker furniture. Half Rounds will not work well for wrapping legs of wicker furniture.
Sizes $4,5,6,7$, and 8 are popular for spokes or ribs in basketry and wicker furniture. Remember to choose a weaver smaller than the spokes

| Rattan Rings |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Rings made of rattan are sturdier than wood handles. A very popular material for various other basketry projects, macramé, and purses. <br> Unlike wood hoops, they can easily be drilled into. They are the only ring that can be reshaped to oval, by forcing a smaller ring over the larger ring, after soaking it in water. |  |  |  |  |  |

| Sample Bags Available: SA-RPS $\$ 2.00$ ea |  |  |  |

Rattan poles are a very decorative vine. The vine is tan to caramel in color with black rings where the leaves were sheared. Rattan is used for furniture, instrument handles and polo club handles, to name a few.

## Rattan Poles without skin

The rattan bark-or skin-is removed by machine and the pole sanded to produce a smooth surface. The wood is a pale sand color. Wood dyes and finishes are easily applied. Skinless rattan is most often used for wicker furniture, curtain rods and even picture frames.

| Rattan Poles without Skin |  | Sold in 9 ft <br> lengths |
| :---: | :---: | :---: |

## Bamboo Poles

## NO RETURNS OR EXCHANGES ON BAMBOO. NO EXCEPTIONS.

## Frank's Bamboo Guarantee

1. All bamboo poles are guaranteed to be crooked-not straight. Some poles are nearly straight.
2. All bamboo is guaranteed to be a different color from the last time you bought it. Do let us know what color you are looking for. The best way is to send us a sample.
3. All bamboo is guaranteed to split. We do not ship split poles, but it may split during shipment or during storage. Call for ideas on how to reduce splitting.
4. All bamboo is guaranteed to taper and the amount of taper will vary from pole to pole.

Bamboo poles are all hollow and should not be confused with Rattan, which is solid and more flexible. Our standard Yellow Bamboo ranges in size from $1 / 4$ to $11 / 2$ inch diameter. Color varies greatly from batch to batch. Please advise what you are using it for and what color is best suited to your purpose. Be sure to state lengths ordered.

## 

Small diameter Black Bamboo tends to be darker and blacker in color than Large Diameter Black. It is used in musical instruments and decorative projects.

| Small Diameter Black |  |  |  |
| :---: | :---: | :---: | :---: |
| Order No. | Diameter | Length | Price |

## Bamboo Planks

Bamboo planks are cut to a uniform width, their entire length. They are approx. $1 / 4^{\prime \prime}$ to $5 / 16^{\prime \prime}$ thick and all planks are $8^{\prime}$ long. The BPF2-8T planks are specifically selected because they run towards the thicker dimension. They are useful for a wide variety of purposes. For ease of shipping, we can cut planks to length as we do bamboo poles.

| Bamboo Planks |  |  |  |
| :---: | :---: | :---: | :---: |
